

# Seaside Airport Advisory Committee

Meeting minutes  
September 24, 2013

**Meeting was called to order** at 6:10 PM.

**Members present:** Randall Henderson, Neal Wallace, Randy Frank, Teri Carpenter, Steve Phillips

**Members absent:** Roy Bennett, Dianne Widdopp, Tracy MacDonald

**Guests:** Jim Byrne

**July minutes:** Motion to approve by Steve Phillips, seconded by Terry Carpenter, motion passed.

**Infrastructure / improvements / funding:** Neal Wallace reported that FAA has reimbursed the city for the 2012 project. Committee agreed to remove this item from the agenda. However W&H Pacific subsequently billed the city for \$45K additional, causing problems for the city (new agenda item). Discussed / reiterated that there will be no 2014 FAA project. Neal reported on \$1000 airport funds that have not been spent; discussed using that for landscaping improvements, behind the hangar and old parking lot (new picnic) area.

**Maintenance:** Herbicide application has been done, weeds removed from cracks, grass areas mowed, segmented circle has been painted. Randall noted that runway / taxiway striping is faded, & that ODA / FAA recommend if the city does it, to use water-based paint for compatibility with any future FAA-funded striping work.

**Safety / security:** Randall reported the pedestrian gate lock doesn't work (always unlocked). Neal will have someone look at it.

**Promotion / services:** Sept. 21 BBQ weather was not so good so low turnout / no fly-ins. But those who came still had fun. Nice to see several folks from Four Winds. Shout-out to Terry / U-street & everyone else involved. Discussed coordinating next year's with the EAA 105 chapter poker run again.

**Commercial operations:** Jim Grant will not be making it this year with his biplane but intends to come next year. Dave West Aviation Maintenance (Astoria) has been notified about our reader board and may post a sign for his A&P services.

**Meeting was adjourned** at 6:55 P.M.
